

Mentair Group's Executive Partner Receives Safety Certification

International Society of Safety Professionals (ISSP) recently awarded Mr. Nathan Predoehl their highest rating of Certified Registered Safety Professional (CRSP). The CRSP is recognized Internationally as the premier safety professional certification.

Oklahoma City, Oklahoma ([PRWEB](#)) September 29, 2016 -- Mentair Group's Executive Partner, Mr. Nathan Predoehl recently received the International Society of Safety Professional's (ISSP) Certified Registered Safety Professional (CRSP) certification. The CRSP is recognized Internationally as the premier safety professional certification.

The International Society of Safety Professionals is a non-profit organization. The purpose of the ISSP is to promote and advance the profession of safety management, provide safety management education opportunities, and to create a public registry of qualified safety professionals. The CRSP program is designed to be a recognizable measure of professionalism and accomplishment that employers, regulators, customers and other organizational stakeholders will value in evaluating the capabilities of safety professionals. This program evaluates the combination of experience, education and competency in those areas deemed critical for successful safety professionals.

“A Certified Registered Safety Professional like Nathan holds this professional certification because they have invested heavily in their skills, education and experience as a practitioner of safety management” said Mr. D Smith founder of the ISSP. “The CRSP certification is built on an industry best-practice model that reflects the attributes, competencies and experience necessary to stand out in the field as a safety professional”. The certification is backed by the standards, verification and testing provided by the ISSP.

Mr. Predoehl is a co-founder of the Mentair Group, a safety and quality management auditing and consulting group formed in 2012. The Mentair Group conducts registration audits for recognized international safety organizations like the “International Standard for Business Aircraft Organization (IS-BAO) and the International Standard for Business Aircraft Handlers (IS-BAH). Mentair Group also provides consulting services for various aviation companies that are utilizing safety and quality management systems.
